

Food Labelling and Rotation Solution

METO[®]

FOOD SAFETY

METO Labels are manufactured in compliance of HACCP principles

METO[®]

Food Rotation Labels are essential for commercial kitchens.

EFFICIENCY
clear and concise

REDUCTION
of food waste

COMPLIANCE
Public Health Laws

METO OFFERS A WIDE RANGE OF FOOD SAFETY GRADE LABELS IN VARIETY OF ADHESIVES TO MEET YOUR FOOD SAFETY LABELLING REQUIREMENTS.

YOU CAN CHOOSE PERMANENT, WASH OFF, DEEPFREEZE, DISSOLVING OR REMOVABLE.

LABELLING AND ROTATION

METO food label gives instructions for safe handling and storage. For examples, ingredients lists to help consumers select foods with ingredients they want or need to avoid, identifies defected food to prevent contamination, handling of leftovers, storage of raw products.

Food labels are highly regulated in most parts of the world to better reflect the global safety regulatory environment. METO labels are made of food safety grade materials that do not contaminate the food.

FOOD ROTATION LABELLING KIT

METO Food Rotation Labelling Kit provides a colour-coded system for food preparation and packaged meals in order of freshness to lessen the risk of using or serving expired food to consumers

Rotation Kit includes:

1 Acrylic Table Dispenser (washable)

Can be wall-mounted with heavy duty industrial double-sided tape*.

7 rolls - 26mm round labels in dispenser boxes

color coded from Monday to Sunday

food safety grade labels

wash off adhesive**

700pcs/roll

* Tape not included

**Other adhesives like permanent, deep-freeze, dissolving and removable are available upon request.

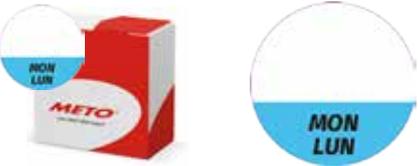

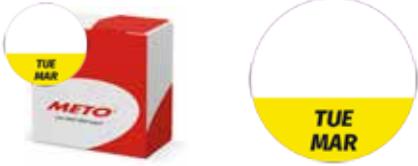

FOOD SAFETY LABELS

Meto Food Rotation

Our Food Rotation Labels are key for your customers to implement proven food safety measures, keep your products fresh and minimise spoilage. They help you significantly increase operational efficiency by controlling food, product and labour costs while following regulatory guidelines, such as HACCP, to comply with all food safety protocols.

SEALING & TAMPER-EVIDENT LABELS

Meto sealing labels show customers at a glance whether the take-away product is fresh and unopened.

The sealing of the food packages ensures leak-proofness. You can safely give your consumers your products to take home or deliver them yourself.

MetoClosure labels provide perfect protection against leakage during transport and storage.

Give your product packaging an extra dose of security with **MetoSecure** tamper-evident labels!

Our Tamper-Evident Labels are your ultimate solution to build trust with your customers while protecting your products from unwanted tampering. With our innovative technology, any tampering is instantly identifiable and your customers can rest assured that they are holding an untouched and safe product in their hands.

Use Meto sealing labels also as advertising and information labels, for labeling with the best-before date, the batch number or other product information.

CATEGORY OVERVIEW

Food Rotation Labels

Our Food Rotation Labels are key for your customers to implement proven food safety measures, keep your products fresh and minimise spoilage. They help you significantly increase operational efficiency by controlling food, product and labour costs while following regulatory guidelines, such as HACCP, to comply with all food safety protocols.

Dispenser Solutions

Label dispensers come in various designs, making label processing from rolls easier. Using a label dispenser ensures immediate productivity improvements, resulting in more productive and less frustrated employees. These devices automatically remove labels from backing paper, ensuring a seamless labelling process.

Sealing & Tamper-Evident Labels

Give your product packaging an extra dose of security with our tamper-evident labels! Our Tamper-Evident Labels are your ultimate solution to build trust with your customers while protecting your products from unwanted tampering. With our innovative technology, any tampering is instantly identifiable and your customers can rest assured that they are holding an untouched and safe product in their hands.
